

Natalia Ramirez

Full Stack Developer | Software Engineer

Phelan, CA | 909-507-1386 | nataliadevramirez@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

TECHNICAL SKILLS

Skills: JavaScript, Python, HTML, CSS, React.js, Redux.js, Node.js, Express, SQLAlchemy, PostgreSQL, Sequelize, Flask, Mocha, Git, Object-Oriented Programming (OOP), AWS S3, Debugging, Deployment, Wordpress

RELEVANT EXPERIENCE

Allot, Web Developer

January 2024 - current

Promark, Web Developer

November 2023 - January 2024

- Successfully designing and building a comprehensive product and service website on the WordPress platform, meeting project requirements including custom functionalities and specific client needs
- Implementing custom plugins and themes to extend WordPress functionalities, resulting in enhanced user interactions and streamlined processes
- Integrated essential web services, such as domain registration and security features, on the HostMonster platform, ensuring seamless functionality and optimal performance for end-users

FULL STACK PROJECTS

MiniMakers, Full Stack Developer - SQLite3 | Flask | React | Redux | CSS

[Live](#) | [GitHub Repo](#)

- Integrated AWS S3 to enable user image uploads, reducing server load and enhanced scalability of image services.
- Devised a frontend search functionality in a React component to prioritize pins based on title relevance, enabling precise search results for specific titles or keywords within pin titles
- Implemented a Pinterest-like display of images utilizing the React-Responsive-Masonry library to ensure a visually appealing, dynamic and responsive grid layout

GlobalGrub, Full Stack Developer - SQLite3 | Flask | React | Redux | CSS

[Live](#) | [GitHub Repo](#)

- Collaborated closely with a diverse team, employing flexible strategies, utilized Git for version control, and promoted teamwork to successfully deliver GlobalGrub's features and functionalities.
- Developed a responsive order cart functionality utilizing React components to initiate shopping, fetch and display orders, as well as manage cart contents for placing and canceling orders
- Utilized Redux's state management library to help maintain the application's global state in a predictable and centralized manner, making it easier to manage complex data flows and interactions in a React application

ADDITIONAL EXPERIENCE

AREA MANAGER, Nordstrom

November 2019 – June 2021

- Managed the coordination of intradepartmental bodies. Successfully lead the execution of day-to-day departmental objectives by selecting, onboarding, training, assigning, scheduling, coaching, and improving employee performance.
- Supported warehouse associates with daily activities, covering various shifts to support the department, communicate effectively, and deliver exemplary customer service through strong leadership and professionalism.
- Leveraged historical workflow trends and forecasted models to coordinate the main interdepartmental strategy of maximizing workflow efficiency while minimizing deviations from prior budgetary constraints.

FOOD SERVICE MANAGER, Aramark Higher Education @ UC Irvine

February 2015 – November 2018

- Daily oversight of 4 Java City coffee shops totalling over \$1 million in revenue per year. Led a diverse team of 3 location managers, 5 student managers and 46 student employees.
- Maintained monthly revenue and profit projections, hiring, training and management of food and labor costs.
- Assisted the GM with daily tasks as needed and UCI Catering events including high-end galas and VIP high profile events including the UC Regents meetings and LA Rams summer training camps. Assisted with the opening of the Anteater residential dining hall in 2016.
